	<p><b>An Inspector's View of Certification Reports</b> (<i>Krystal Stefanyk</i>)</p> <p><b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• List the certification report elements that may be expected by state Board of pharmacy inspectors.</li> <li>• Recall the common certification report deficiencies.</li> <li>• Identify improvements that could be made to your certification reports.</li> </ul> <p><b>CETA Series Advanced Class:</b>  <b>Designing a Certification Quality Management System</b> (<i>Rene Soetens</i>)</p> <p><b>Objectives:</b></p> <ul style="list-style-type: none"> <li>• Describe the market's quality requirements.</li> <li>• List the benefits and challenges of securing an ISO accreditation.</li> <li>• Identify the quality system elements necessary for a successful certification business.</li> </ul> <p><b>Description and Who Should Attend:</b>  Certification providers service several different industries. All these industries expect one thing from their vendors...quality! Quality is more than just good customer service. It involves adopting and implementing a quality management system, which is easier said than done. This two-hour Advanced CETA Series Course is designed to provide foundational information to company owners and managers who are looking to implement or improve upon their quality management system. Enrollment is limited to 30 people. Those who attend this two-hour course may attend any two of the other Saturday CETA Series presentations.</p> <p>Abby Roth, Chair</p>
